

Please Donate to the Block 42 Clean up We need your help to clean up Block 42.

Even though the Topaz Museum has been closed since March, the Topaz Museum Board has accomplished a major objective: to obtain Block 42, the last six acres of the Topaz site! We now own all 640 acres!

To make that happen, a local businessman who wishes to remain anonymous traded his property, valued over \$40,000, to the owner of Block 42, and then donated those six acres to the Topaz Museum Board. Now the entire Topaz camp site is owned by the Board.

However, the acreage is covered with junk and refuse that needs to be hauled away at great expense.

Please donate to the Topaz Museum to help repair the damage to Block 42.

We must haul five trailer houses and several campers away.

Glass, metal, and junk unrelated to Topaz must be picked up.

We will also remove fencing that is not historic.

As Block 42 is now, it is misleading regarding the history of Topaz and dangerous to visitors. Cleaning that block is imperative. We have received a grant from the Great Basin Heritage Area, but that grant will not cover all expenses.

Other projects inside the Topaz Museum include construction of new exhibit cabinets, preservation of cement pieces constructed at Topaz, conservation of artwork, and upkeep on the building.

Your donations will help with all of these projects.

Please use the enclosed envelope to remit your donation or go to our website topazmuseum.org to donate online.

Watch for the 2021 newsletter that will be mailed soon.
